This memo is to inform you that the compounds listed below were not able to be validated by USDA's Pesticide Data Program (PDP) and were not analyzed in kale during the timeframe of January 2017 through December 2018. These compounds have established U.S. tolerances for kale but did not recover through the QuEChERS Multiresidue Method (MRM) employed by the Ohio Department of Agriculture.

2,4-D	Glyphosate
Clopyralid	Magnesium phosphide
Cryolite	Maneb
Cyromazine	Paraquat dichloride
DDD (o,p' and/or p,p' or total combined	Phospine
Diquat	Pyrethrins
Endothall	Tebufenozide
Fosety-A1	

Please contact the Monitoring Programs Division at (202) 572-8167 with any questions or comments.
